

## **NEWS RELEASE**

### **Rama Theertha Kasi joins ManSat Group as Spectrum Engineer**

**Douglas, Isle of Man – 19 November 2019**

The ManSat Group has appointed Rama Theertha Kasi as Spectrum Engineer as the company continues to expand its service offerings and grow its team on the Isle of Man.

Rama joins ManSat having previously worked as Network Engineer at Ericsson, serving clients across several countries.

Rama holds a Masters in Space Studies from International Space University and a Bachelor of Electronics and Communication Engineering from Amrita School of Engineering.

A member of the Institute of Electrical and Electronics Engineers, EuroScience and Space Generation Advisory Council, Rama worked as an intern in the Indian Space Research Organization's Satellite Center, focusing on "Pseudo-Noise Regenerative Ranging for Deep Space Missions". He was also selected as "Interim Communication Subsystem lead" for a Mars Robotic Mission at NASA Ames Research Center.

Rama said: "Nothing can be more exciting than starting my career in the space industry with the world's largest commercial spectrum provider, ManSat. With ManSat's 20 years of extensive expertise and experience in satellite filing process and consultancy across different administrations around the world, I feel honoured to have joined the company as a Spectrum Engineer.

"I look forward to expanding services to provide end-to-end technical consultancy, starting from the selection of frequencies for the satellite mission to the interference analysis required for coordination of any GSO or NGSO systems. I am delighted to work with the experienced, enthusiastic team at ManSat voicing the needs and necessities of our customers across different forums around the world, assessing the market intelligence and advising the strategies to be followed, all this, while providing the regulatory consultancy."

From filing services through the Isle of Man and Iceland to end-to-end Consulting services for the life of a filing, ManSat now offers comprehensive solutions to address each company's unique spectrum requirements.

Chris Stott, ManSat Chief Executive Officer, said: "We are fortunate to have Rama join our team. To have him work from the Island and to make it his home is a double blessing for us as we all work to expand the company's services both here at home and abroad."
