

NEWS RELEASE

MANSAT APPOINTS KATHERINE GIZINSKI AS GROUP CEO

*Atlanta, USA; Douglas, Isle of Man; London, United Kingdom; Reykjavík, Iceland –
5th October 2020*

ManSat has appointed Katherine Gizinski as its group Chief Executive Officer.

Previously the group's Chief Commercial Officer, Katherine will continue to work closely with Chris Stott, ManSat founder, in his new role as Executive Chairman as she leads the company.

Chris Stott said: "Katherine is a smart, driven leader backed by the superb team at ManSat. Change is the only constant in our industry and when you find someone better than yourself to lead the company then it's a natural step to hand over the reins. Katherine has the full support of myself and the ManSat Board of Directors."

Katherine added: "I'm excited to lead ManSat into its next phase of growth, building on more than twenty years of excellence in serving our clients. I thank Chris and the Board for their invaluable support and trust. Our immediate focus will be on providing steadfast guidance to our existing clients during this unusual time and continuing to offer differentiated services while implementing our forward-looking strategy."
